Position Enterprise Business Continuity Director

Location Chesapeake, VA / the Bay Area, CA / Chicago, IL ... with possibly more to follow

Job Description

Team member will be part of the Enterprise Business Continuity group reporting to the Regional Head of Enterprise Business Continuity. The regional group reports into the global team based in the US.

The Business Resiliency Analyst will assist in the development, implementation, testing, education and maintenance of the Enterprise Business Continuity program across all departments to ensure business recovery in the event of an emergency or disaster. Will maintain standards and ensure that all plans are documented and meet those standards. The individual will work in conjunction with department contacts to ensure a high level of awareness across the company as well as the appropriate preparedness of personnel during the event of a disaster.

Implement firm-wide Enterprise Business Continuity Policies and Standards. Provide guidance to Business Units and ensure they are meeting Enterprise Business Continuity's Policies and Standards. Participate in the firm-wide Enterprise Business Continuity steering committee and escalate issues as necessary.
