Position	Director of Facilities Engineering
-----------------	------------------------------------

Location	Yonkers, NY
-----------------	-------------

Job Description

Elizabeth Seton Pediatric Center, the largest pediatric sub-acute health facility in the country, is seeking a Director of Facilities Engineering to join its mission-driven, high-performing, growing health system in the greater NYC metropolitan area.

The primary purpose of your job position is to plan, organize, develop, and direct the overall operation of the Support Departments of the facility including the Engineering, Buildings and Grounds, Security, Safety, Environmental Services, Emergency Preparedness, LEED and Environmental Awareness, Vehicle Maintenance and to provide support to our White Plains campus (John A Coleman School and Children's Rehabilitation Center) in accordance with current federal, state and local standards, guidelines, and regulations governing our facility, and as may be directed by the CEO or Vice President of Operations, to assure that our facilities are maintained in a safe and comfortable manner. The position needs to strategically plan for the facility in terms of establishing best practice in operations, customer service and quality. This position also develops and maintains internal control mechanisms to assure accountability within the support departments.

Requirements:

- Must have, as a minimum, 10-15 years building management/facility management supervising building trades and maintenance workers and contractors in a healthcare setting.
- Must have experience in the following:
Medical Gas Bulk O2 (Oxygen).
Institution Fire Drill Conductor
Fire Alarm Testing & Operation
Air Compressor Operation
Piped Medical Gas Systems
Standpipe Systems with Fire Pump and Gravity Tank
Sprinkler Systems with Fire Pump and Gravity Tank
- Must have college degree in related field to Engineering, Master's preferred
- Must have at least one of the following: 5 years minimum experience operating and maintaining lithium bromide absorption equipment (250 ton minimum) and related support equipment, or NYC Stationary Engineers License, or NYC Fire Department Refrigeration Machine Operators License.
- Must have EPA 608 Universal CFC Technician Certification.
- Must obtain within one year from date of hire from the NYS DEC Category 7G Certification for Cooling Tower Pesticide Application.
- Must be licensed in accordance with current applicable standards, codes, labor laws, etc.
- Must be knowledgeable of boilers, compressors, generators, etc., as well as various mechanical, electrical and plumbing systems.
- Must have the ability to read and interpret blueprints.
- Must be knowledgeable in building codes and Life Safety Codes, rules and regulations for NY State.
